

MODEL 14B *Magnet Wire Stripper*

The Model 14B is a Heavy Duty Wheel Stripper designed to strip Film Type Insulation from large gauge Round and Rectangular Magnet Wire. This unit can be equipped with three different types of stripping wheels: SureStrip Fiberglass for a smooth stripped surface, Wire Brush for aggressive insulation removal, and a special Nylon Brush used to efficiently comb out coaxial shielding. Each machine comes standard with (1) pair of Wheels, a durable Powder Coat Finish, and 1 Year Limited Warranty.
